

Abacus®

World Leaders in Lighting

**Lighting
maintenance**
Another
bright idea
from Abacus

When you've been leaders in lighting for over half a century, you know a thing or two about maintenance. In fact, no company in the UK is able to deliver the level of experience, quality, integrity and customer care that we do. And how do we know that? Quite simply, because our customers the world over tell us so.

Not just because of our professionalism and passion; but because we offer the complete package. A package you can pick and choose from as you wish, depending on your needs.

So whether you want the full service from design and planning onwards, or life-extending maintenance for your existing exterior lights – including other manufacturers' products – we're here to help.

Lighting maintenance – Abacus style

Entrusting your lighting maintenance to Abacus pays off in more ways than one. For one, our packages start from as little as £2 per day. And then there's the rest:

Safety

Changing a light bulb in the office is one thing; but when it comes to complex exterior lighting, untrained staff members must take on considerable risk of injury when dealing with high-voltage equipment – especially if it involves working at heights. Bringing Abacus on board eliminates that risk, fulfilling legal health and safety responsibilities, avoiding the possibility of injury or litigation and helping you protect your most precious commodity – your people.

Cost efficiency

It only takes one faulty lamp to cause major problems to an entire operation or event, whether it's a dark railway platform or an insufficiently-lit sports field. Down-time costs companies heavily – not to mention replacing faulty equipment that's been neglected or incorrectly used. From as little as £2 a day, you can spread the cost of your lighting maintenance, avoiding unwelcome surprises – and the bills that come with them.

Performance

As any photographer or TV crew will testify, you can have the best camera in the world – but if the light fails, so will the picture. And it's not just high-exposure venues where lighting performance is critical: security lighting also needs expert care and regular maintenance to extend its life, keeping your facility safe and sound with the very minimum cost and effort to you.

Bringing Abacus on board eliminates that risk, fulfilling legal health and safety responsibilities, avoiding the possibility of injury or litigation and helping you protect your most precious commodity – your people.

But don't just take our word for it...

Chesterfield Borough Council

By upgrading and maintaining their sports, architectural and amenity lighting, we've helped Chesterfield District Council to improve the look and feel of their city centre, as well as enhancing civic pride and making the community a safer place.

"Abacus provide the maintenance for all our street and car park lighting. As a local authority, we need a company that we can rely on to provide an excellent service, and Abacus Lighting does just that – to a very high standard.

We have worked with Abacus since 2006 and find that they provide an excellent service in both maintenance and any technical support we need."

N Hammond, Electrical Engineer
Chesterfield Borough Council

East Midlands Parkway Railway Station

Abacus have been one of the most widely-specified suppliers to Britain's rail industry for over 50 years. Fully qualified and Link-Up audited, we've had extensive experience in maintaining exterior station lighting, keeping public areas consistently lit and providing a safe environment for train passengers from Dover to Dundee. Thanks to our regular maintenance work, we help Network Rail to extend the life of their columns, saving them money and ensuring their lighting provision meets the highest safety standards.

Asda Grimsby

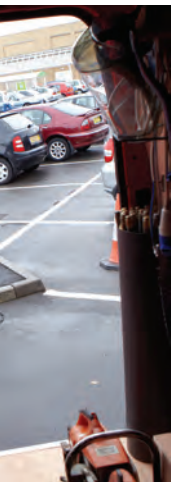

Every year, hundreds of retail sites across the country choose Abacus to supply, manufacture and fit their exterior lighting. Asda Grimsby is just one of them. Abacus columns, masts and lanterns adorn the car parks and surrounding spaces of Asda stores nationwide, where we also carry out high-mast lighting inspections, surveys and general maintenance to keep car park areas bright, welcoming and safe.

“
**We find Abacus
to be very
professional and
would highly
recommend
the company.**
”
